Learning about and applying Universal Laws can really make a difference in your life. Universal Laws govern the mind and the spirit. These laws and principles apply to everyone, anywhere, and anytime. You have probably heard of the Law of Attraction. However, there are many more Universal Laws. I believe that trying to create a magnificent life using just one law is like trying to create good health eating just one food!

Just as there must be a balance of different foods in your diet, the Universal Laws need to be used in combination, not isolation. You will not get the results you want by trying to use the Law of Attraction by itself.

When you start learning about Universal Laws, life will start to make sense. For example, the Law of Vibration means that everything in existence consists of energy, and, therefore, vibrates. How can this law help you transform your

professional and/or personal life? By realizing that you can affect your life by raising your vibration and changing the thoughts that you think.

At one time, people believed that solid things were simply a solid mass. We had no direct effect on them. Or so we thought. Now we know this is not true. If you place something solid like a chair under a special microscope, you would see molecules vibrating. Everything in the Universe is vibrating, including our thoughts, feelings, words, and actions. Since thoughts are energy, we can change our lives just by thinking different thoughts.

Universal Laws are not taught in higher education, but they should be because they explain how the universe works. Not knowing how the universe works is like trying to play a game without understanding the rules. It leads to frustration.

For centuries this information was hidden from the masses so that the powers that be could have control over them. It is no accident that this information is finally being made available to all of us.

By providing information on Universal Laws, I intend for you to be able to see why your life has turned out the way it has, and what you can do to improve it, if that is your desire.

The Law of Like Begets Like

"Louise was involved in a divorce action. Her husband became obstructive and vindictive, continually harassing her through their children. Instead of reciprocating, she remained understanding and supportive of him toward the children, even though she had had difficulties in making the transition from housewife to breadwinner."

The Law of Like Begets Like is also known as the Law of Correspondence, the Law of Mind Action, and you may have heard it described as, "What Goes Around Comes Around." What it's called is not so important. How the law works is most important because this is one of the laws by which we create our destiny.

Before I tell you how things turned out for Louise, I will define what this law is. In Bruce McArthur's book, *Your Life: Why It Is the Way It Is and What You Can Do About It*, he says, "The kind of a life we are living begets (creates) the life we will have, because 'like begets like' is one of the Universal Laws by which we create our destiny. It applies in all aspects of our lives, and, as a result, the Universe brings to us actions, situations, emotions that reflect what we have expressed or held in mind toward others."

Mr. McArthur, who also tells Louise's story, goes on to say, "In other words, what you are 'like' is what your life is 'like.' You beget your life! Therefore, you can tell, by watching what is happening to you in your life, what you are really like. If

you don't like what is happening to you, it is a signal to you that you need to make a change."

In my own life, for example, I always let in other drivers who signal they want to get in front of me. Instead of speeding up so they can't merge in, I let them in. As a result, whenever I need to get over, I am always allowed over. The energy you put out into the Universe comes back to you.

How did things end up for Louise? "Eventually she met a man who was very understanding and supportive of her through her period of readjustment. They later married. It was exciting to see the law working in this case," says Mr. McArthur, "to bring back to Louise--when she was in such need--the understanding and support she had so wisely manifested in her relationship toward her husband during the period of divorce."

The Law of Vibration

The Law of Vibration states that everything in the universe, which consists of matter and energy, vibrates, including humans. Even though our bodies seem solid, we are not. There are trillions of molecules vibrating that make up our physical and energetic bodies. Therefore, understanding the Law of Vibration is crucial because it will help us to change our lives. How so?

**Working hard is not enough;
what we get in life depends on our vibration;
*not our skin color!***

If your dreams or goals are higher than your vibration, you will never attain them. Your vibration must come up and match that which you are seeking to attain. It will not matter how hard you work because many good men and women have worked hard all of their lives and never achieved their dreams. It is because they did not understand the Law of Vibration.

Many of us have experienced traumas in our lives. Negative traumas usually impact us by lowering our vibration. And if your vibration is low, you will attract the same low frequencies or vibrations into your life because of the Law of Attraction that states like attracts like. Your low vibrations may attract negative people; dysfunctional or unhealthy love relationships; unfulfilling or dead-end

jobs; attacks which could either be sexual, physical or verbal; and even evil spirits from the other side of the veil.

The good news is that if you do the inner healing work suggested in this course, you can raise your vibration and start attracting good things into your life. Remember that love is one of the highest vibrations there is in the universe. Since God is Love, according to 1John 4:8, then we want our vibrations to match God's. When we reach that level of vibration, we start to live a blissful and magnificent life!

The best way to see if these Universal Laws work is to start applying them in your own life. I encourage you to get a copy of *Your Life: Why It Is the Way It Is and What You Can Do About It*, by Bruce McArthur or other books about Universal Laws. It takes time to study and learn about Universal Laws, but the effort is worth it! To help you get started, I have included an eBook on Universal Laws in this module. Please send me your stories about your experiences with Universal Laws to helen@mlmmasteryacademy.com.
